## **First National Title Enhances Website with Valuable Tools**

First National Title Insurance Company (FNTI) CEO Chris Phillips announced that the FNTI website has been upgraded to include a section for Buyer's Cost Estimates and Seller's Net Sheets. These interactive worksheets can be found under the "Industry Resources" tab on our website at [www.fnti.com](http://www.fnti.com). Three options appear under the "Calculator" category – Texas Rate Calculator, Buyer Cost Estimate and Seller Net Sheet. There is the option to use the "Short" or "Long Form" for both the Buyer Cost Estimate and the Seller Net Sheet depending upon the level of detail you wish to calculate. These valuable tools were designed to be used on-line by FNTI agents and their clients or incorporated into their own webpages as a marketing tool.

This is just the first release of an ongoing project to offer the latest technology to the FNTI independent agents. Another release is anticipated in the first quarter of 2014 that involves both closing calculators as a mobile app designed for iPhones and Androids. Again this tool will be available to FNTI agents who see a use in their markets.

FNTI is committed to the needs of its independent agent and will work with its agents who do not have the resources to develop these types of products. All agents should have access to the latest technology and First National intends to be their resource.

Company Vision – To serve the needs of the independent agent and provide sound underwriting decisions and education to our agents. We strive to become your independent underwriter of choice.

Company Philosophy – People do business with those they know, like, and trust.

To learn more about our company and its services, please visit [www.fnti.com](http://www.fnti.com).
