

Who we are:

RynohLive is the industry standard for escrow reconciliation compliance that helps to eliminate fraud, embezzlement, accounting errors, and other financial losses for the real estate settlement industry. RynohLive operates out of Virginia Beach, VA and is provided by Segin Systems, Inc.

What we do:

By combining ALTA Best Practices and the most advanced technology in financial crime prevention, RynohLive delivers everything your organization needs to manage your escrow accounts while fighting fraud. RynohLive is a proactive financial management and fraud protection system that provides daily three-way account reconciliation, real-time auditing, reporting and financial transparency. It delivers a range of fraud detection including automatic group deposit matching, automatic sweep account reconciliation, and monthly reconciliation evaluation giving you a rigorous and comprehensive oversight for faster error discovery and correction.

Why RynohLive?:

Since its national market introduction in 2009, RynohLive has protected over 4 million real estate transactions worth in excess of \$1 trillion. Recognized as an Elite Provider by the American Land Title Association, RynohLive is universally acknowledged as the industry standard for the financial management and protection of settlement funds.
